Note: The April 1, 2010 Population Estimates base reflects changes to the Census 2010 population from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It does not reflect changes from the Count Question Resolution program. All geographic boundaries for the 2011 population estimates series are defined as of January 1, 2011. The Office of Management and Budget's statistical area definitions for metropolitan and micropolitan statistical areas are those issued by that agency in December 2009 <<http://www.whitehouse.gov/sites/default/files/omb/assets/bulletins/b10-02.pdf>>.

The metropolitan and micropolitan statistical area population estimates are based upon the county estimates. The county estimates methodology is available at: <<http://www.census.gov/popest/methodology/2011-nat-st-co-meth.pdf>>. The metropolitan and micropolitan statistical area population estimates in Puerto Rico are based upon the municipio estimates. The methodology for municipio estimates is available at: <<http://www.census.gov/popest/methodology/2011-prm-meth.pdf>>.
